Report a COVID-19 rapid lateral flow test result

Use this service to report your result to the NHS after using a rapid lateral flow test kit to check if you're infectious with coronavirus (COVID-19).

A rapid lateral flow test is a coronavirus test you do yourself. It shows you the result on a handheld device that comes with the test.

Report the result:

- every time you use a rapid lateral flow test kit
- as soon as possible after you get the result

You cannot report a result after more than 24 hours.

You can only report one result at a time.
