

For Well-Being subjects:

For Art Design and Technology

Your child will be set a weekly task in the form of a challenge. Each week the challenge will be based upon one of the subjects within the ADT department. The challenge will be set each Monday and all entries will need to be submitted on Classcharts through the ADT Weekly Challenge group. The challenge is designed to complement and support the creativity and design based learning that is taking place in the lesson and therefore will be relevant to your child's long term learning journey. The aim of our home learning challenge is to promote creativity, provide opportunity for students and their family members to participate together and ultimately encourage engagement in creative tasks whilst at home.

For Performing Arts

There will be a weekly task set for your child to complete on Class Charts in both Music and Drama. The task will be one that compliments the learning that is taking place in the lesson and therefore will be relevant to your child's long term learning journey. The aim of our home learning is to ensure that when your child returns to school they can return to practical tasks with the support of tasks that bridge the gap between theory and practical work.

For PE

There will be a weekly, physical task set for your child to complete on Class Charts. The tasks will involve home exercises that can be completed either inside or in a back garden space. Alongside this, we encourage all students to join the group 'Brid PE' on the exercise app 'Strava'. On this group, we will be setting additional walking, running and cycling challenges to ensure we are looking after the physical and mental wellbeing of individuals.

For Well-Being subjects:

For Art Design and Technology

Your child will be required to work from the booklet they have been provided with by their subject teacher, this will also be available to view on Class Charts and the Bridlington School website under the Home Learning section. Home learning tasks have been tailored to meet the requirements for each of the subject areas within ADT, and are also relevant to the specific schemes of work being studied in terms of content and timing. There are obvious barriers that unfortunately prevent home learning tasks in ADT from being the same as the practical learning that takes place in school, namely the use of specific equipment and materials. Taking this in to consideration staff have set tasks that support prior and future learning using basic equipment and resources. The booklet contains several tasks as a department we recommend your child completing one task a week and submitting it to their class teacher via class charts or email for feedback. Once the booklet is complete your child can be set personalised extension tasks relating to their current topic within ADT.

There is also the opportunity for your child to enter the weekly ADT Challenge. The challenge will be set each Monday and all entries will need to be submitted on Classcharts through the ADT Weekly Challenge group.

For PE

There will be weekly coursework booklets to complete where they will be given research booklets and weekly loom videos to highlight the requirements for that specific task. These will be on the Unit RO56 – Outdoor Adventurous Activities. We also encourage all students to join the group 'Brid PE' on the exercise app 'Strava'. On this group, we will be setting additional walking, running and cycling challenges to ensure we are looking after the physical and mental wellbeing of individuals.

For Performing Arts

Your child will be required to work from the booklet they have been provided by their subject teacher, this will also be available to view on Class Charts. Home learning tasks have been tailored to compliment the Theory elements in both Music and Drama. In Music you will study the Music industry for unit 1 and in Drama relevant practitioners and techniques. In Music it is important that students continue the ongoing practice of their instrument where possible. In Drama where scripted work features it is also an opportunity for students to be learning lines.
