

APPLIED SCIENCE BTEC

BRIDLINGTON
Sixth Form

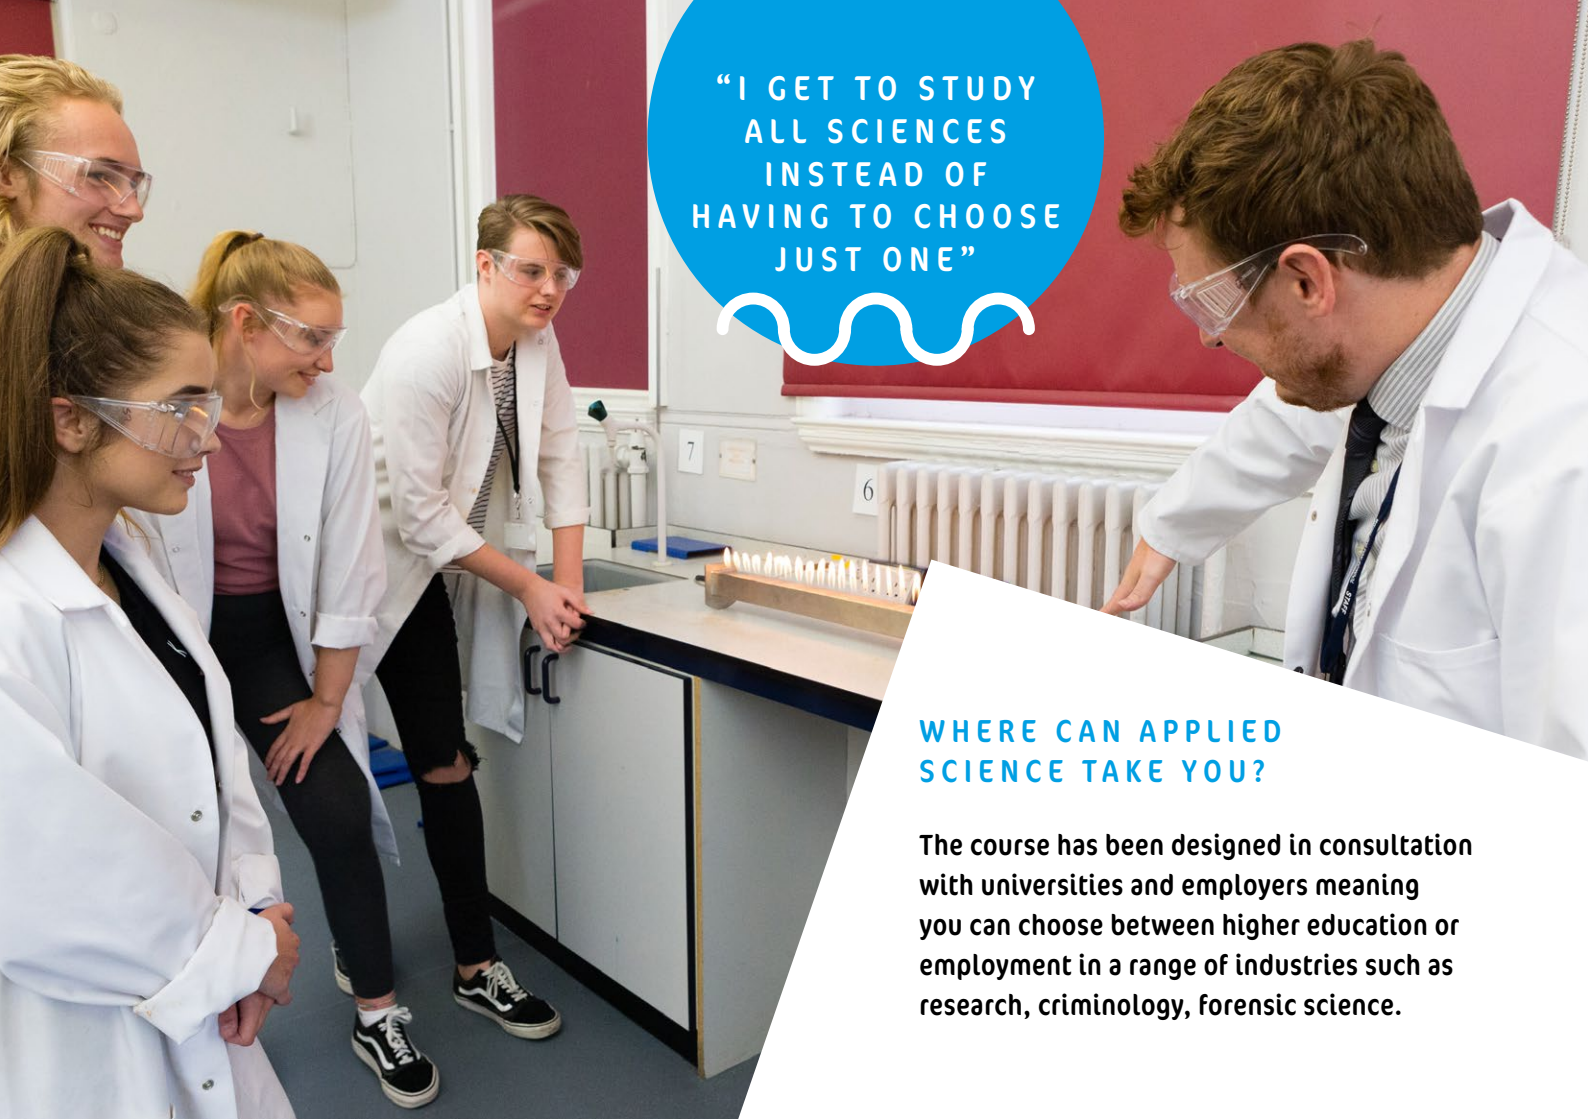

WHY CHOOSE APPLIED SCIENCE @ BRIDLINGTON?

- Find out how science is used in industry
- A great route into employment or university
- Apply and develop investigative and practical skills

Entry criteria: Average of Grade 4 in all of your subjects, a Grade 4 in English and Maths and Grade 4s in Science.

This course is based on the principle that to understand the nature of science, you must actively experience the environment through experimentation and exploration, so you'll do plenty of practical investigations. You will study a range of topics from biology, chemistry and physics matched to your areas of interest.

“I GET TO STUDY
ALL SCIENCES
INSTEAD OF
HAVING TO CHOOSE
JUST ONE”

WHERE CAN APPLIED SCIENCE TAKE YOU?

The course has been designed in consultation with universities and employers meaning you can choose between higher education or employment in a range of industries such as research, criminology, forensic science.
