Units taught in Y7

Main skills developed in Y7

PSHE focuses on the everyday skills that are needed to flourish in life outside of school. In year 7 it also looks to support their transition from Primary School. Looking at key questions like, what does it mean to be an independent learner? This then moves on to key aspects of everyday life of looking at relationships they have in school life and how to handle those different relationships. This then leads into looking at their role in wider society.

How parents can help

Encourage students to attempt all PSHE homework tasks. Discussion of family values is very useful in helping students to understand their own wellbeing. We encourage students from all backgrounds to engage in discussion on values, and further research and family debate on these ideas would be useful in enabling students understanding of who they are and where their values originate

SMSC and FBV

Social, moral, spiritual and cultural values run through everything we do!

We focus mainly on the fundamental British Value of Tolerance and mutual respect in PSHE, ensuring that all voices and opinions are heard in a safe and nurturing environment
