Bridlington School recognises that all students, regardless of their background and socio-economic status, should have equal access to a curriculum that will enable them to make rapid and sustained progress resulting in the attainment of outstanding GCSE outcomes. Through exceptional rates of progress, and the achievement of high attainment levels, all students will ultimately have the opportunity to secure places at outstanding Post-16 educational providers. High quality impartial Careers Advice and Guidance is given to all students to ensure that they make appropriate, informed choices and that they made a smooth transition on to Post-16 programmes of study and apprenticeship programmes.

Our core aim is to raise the attainment and progress of pupils eligible for pupil premium funding so that their performance compares favorably with Non-Pupil Premium peers nationally.

The PP Strategy for academic years 2020/21 aims to address inequalities in the education of pupils from low-income families and raise the attainment of these pupils. This remains a consistent and relentless focus. In addition to this, targeted intervention and support strategies are deployed in order to:

- improve levels of attainment and progress;
- close attainment gaps relative to national averages (including PP vs Non PP);
- close attainment gaps relative national averages (including PP SEND vs Non PP SEND);
- enhance reading, writing, mathematics and communication skills;
- engage and develop learning through a comprehensive extra-curricular provision;
- subsidizing enriching experiences that PP cohort might otherwise miss;
- have a clear focus on all of the PP cohort, including those with SEND and more able pupils and support pupils in becoming aspirational, confident and successful learners
- reduce absence of PP cohort especially persistent absence
- overcome the impact of COVID-19 pandemic

We believe that outstanding teaching and learning is paramount to the progress of pupils from disadvantaged backgrounds. This remains a consistent and relentless focus. In addition to this, targeted intervention and support strategies are deployed in order to:
