

Our weekly roundup, shining a light on life in Bridlington School

Round Up and Super Successes:

This week in Sixth form we have been getting ready for our open event that happened on Thursday evening. It was a fantastic atmosphere and it was lovely to see so many people attend! If anyone has any further questions after their visit then please feel free to email our Head of Sixth Form Katie Davidson at DavidsonK@Bridlingtonschool.org.uk and she will get back to you with some answers.

Our MFL department celebrated European Day of Languages by hosting a film and food session where students were able to taste food from a variety of European countries. Year 7 and 8 were able to watch a French theatre company perform and the canteen served a European themed menu. All students in KS3 study French until potentially selecting it as a GCSE option. Test their language skills by quizzing them on the words they have been learning!

Exciting events:

Year 7 have got off to an amazing start in Science at Bridlington School. They have been learning how to work and think like scientists do. As a well done we have the Royal Institute coming in to deliver an exciting and explosive "We've got the Power" Science Show on the 5th of October 2022. Students will explore the chemistry of fossil fuels and the effect they have on the climate as well as the physics and chemistry of storing electricity. There will be lots of demonstrations and of course, the Royal Institute will be setting things on fire!

Our Year 8 forensic scientists have been trying to solve the case of who murdered Mr Plant - Cluedo style. Thanks to Miss Tagg for some amazing lessons that included fingerprinting, chromatography and flame tests.

Our extra-curricular clubs are proving very popular, with over 200 students attending clubs since they started two weeks ago. The 'Bridlington School Extra-Curricular Timetable' is on the school website, please encourage your child to get involved and grab every opportunity available!

Important information:

We would like to invite you to be part of our Careers Network. We have many local, regional and national employers as part of this network and they have a hugely beneficial impact on showing our students what they can go on to achieve as well as supporting their decision making. Being part of the network does not commit you to being part of any events but it will allow us to communicate with you regarding activities you may wish to be part of – these can include; tours of the business, talks in assembly, Work Experience, being part of our Mock Interview Day, joining us for our annual Careers Fair or any other activities you may think of. If you or a colleague would like to engage with us please contact Mr Pick.

On Friday 7th October, 30 year 11 students will be taking part in a study skills workshop with Hull University as part of our SPARKS programme, a partnership with Hull University.

Year 12 will be out of school on self-canvassed work experience during the week commencing 12th June 2023. Please encourage year 12 students to start seeking out work experience opportunities as early as possible in order to secure a placement that will give them the most benefit.

If your child is looking at going to university, please consider joining the webinars listed below. The team from Hull University will give you an overview of the university application process and how you can support them during this time.

Time: 5:30-6:30pm

When: Thurs 13th October: <https://attendee.gotowebinar.com/register/355909041432648461>

Thurs 17th November: <https://attendee.gotowebinar.com/register/6375355871994725899>

As we enter October, we see the arrival of the Hull and Bridlington Fairs. To support our students in having a great time whilst staying safe, form tutors will be providing advice on how to have a great time and stay safe at the fair.

We are on Instagram, Facebook and Twitter – search for Bridlington School and give us a follow! Website: www.bridlingtonschool.co.uk
