Main skills developed:

Analytical, critical thinking and metacognitive skills, improved communication, problem solving, research and application skills and many more that will prepare you for an exciting future.

How parents can help to support their child's learning:

You can support your child by discussing with them their progress through the course. Students receive a summary assessment twice a year that contributes towards their final grade.

You can also discuss with them how they are managing their independent study time. To be successful on this course, students should be completing 5 hours of independent study time each week for Criminology. Within this time they should be completing homework, revision, further reading, past exam questions.

If a student is absent, then it is their responsibility to find out what work they have missed and complete any missing pieces of work.
