

## The Torch

### Our weekly roundup, shining a light on life in Bridlington School Round Up and Super Successes:

On Tuesday, assemblies giving information on CAMPS International trip to Borneo inspired a number of students to seek further information.

On Wednesday, the Bridlington Medical, Health and Social Care Academy had a hands on practical session using health and social care facilities at East Riding College.

On Thursday we had Harriet from Orsted in school to talk about apprenticeships in general and their apprenticeships in renewable energy. A few students across various years have told us they have been inspired to apply.

On Thursday evening we had the Year 9 Pathways Event. It was great to say so many students and their parents engaged in discussions about future pathways and next steps. Nick from the East Riding council inward investment team was able to join us to give some specialist input for students and parents on the current and future employment opportunities in the region.
