

# The Torch

## Our weekly roundup, shining a light on life in Bridlington School

CCF cadets returned from a really successful weeklong army camp at Strensall barracks where they took part in military exercises, outdoor and adventurous activities and field craft.

This year's production of High School Musical JNR was performed for 3 nights on Monday, Wednesday and Thursday in The Spa's theatre, as well as a matinee performance for the local primary schools, with a cast from years 7 to 13. The feedback has been fantastic, with the production highlighting our TORCH values through spreading Happiness and being a great 'Opportunity' for our students to showcase their talents and entertain our Community.

Students from years 10 and 12 worked with staff from King's College, Cambridge. Year 10 looked into A-level options and applying to Cambridge and year 12 looked at applications to Cambridge and other prestigious universities.

All of year 10 worked with staff from the Education & Skills Partnership alongside our careers team setting up their profiles on Log On Move On (LOMO) in preparation for sixth form and college applications in the autumn term.

On Thursday and Friday we had year 6 students from our feeder primaries in school for their transition days in preparation for joining our school in September. They got to experience a lot of secondary school assemblies, lunches and lessons with specialist resources including science and design and technology. The students said how much they enjoyed the experience and are looking forward to September.
